

Aftab Ahammed

Computer Science & Engineering Student

Dhaka, Bangladesh | your.email@example.com | github.com/aftabahammedbupcse3-byte | aftabahammedbupcse3-byte.github.io

EDUCATION

Bachelor of Computer Science and Engineering Jan 2024 – Dec 2027 (Expected)
Bangladesh University of Professionals (BUP), Dhaka, Bangladesh · CGPA: 3.58 / 4.00 (up to 5th semester)

Higher Secondary Certificate (HSC) 2020 – 2022
Akij Collegiate School, Jashore, Bangladesh · GPA: 5.00 / 5.00 · Group: Science

Secondary School Certificate (SSC) 2018 – 2020
Akij Collegiate School, Jashore, Bangladesh · GPA: 5.00 / 5.00 · Group: Science

TECHNICAL SKILLS

Languages: C, C++, Java, Python, TypeScript
Frameworks: React.js, Node.js, Java Swing, HTML, CSS, JavaScript
Tools & Platforms: Git, Linux, VS Code, IntelliJ IDEA, MySQL, Code::Blocks

PROJECTS

- Line Follower Robot** · C · Arduino
- Arduino-based autonomous line-following robot with IR sensor integration and optimized motor control for precise path tracking.
- Dhaka City Navigation System** · Java · Dijkstra's Algorithm
- Java implementation of Dijkstra's shortest path algorithm with interactive graph visualization and real-time route calculation.
- Hospital Management System** · Java · MySQL
- Comprehensive desktop application for managing patient records, doctor schedules, appointments, and medical history.
- Company ERP System** · Java · MySQL
- Enterprise resource planning system for managing company operations, inventory, employees, and business workflows efficiently.
- HorizonTechX Image Gallery** · TypeScript · CSS · JavaScript
- Interactive image gallery web application with responsive design, category filtering, and smooth user experience.
- Saloon Booking** · TypeScript · JavaScript
- Online salon booking system with appointment scheduling, service management, and customer dashboard features.
- TrackMint** · React · Node.js · MongoDB
- Full-stack expense tracking web app that lets users manage daily expenses, categorize transactions, and view insights through interactive Recharts charts, with real-time API integration.
- Turing Machine Simulator** · C++
- Theoretical computer science project implementing a Turing machine simulator with custom state transitions and tape operations.

ACHIEVEMENTS & CERTIFICATIONS

- Introduction to MS Excel — Simplilearn SkillUp** March 2025
- Completed a certification covering Microsoft Excel fundamentals, data organization, formulas, and basic data analysis.
- Project Management 101 — Simplilearn SkillUp** February 2026
- Completed foundational training in project management, including planning, scheduling, team coordination, and project lifecycle concepts.

CO-CURRICULAR ACTIVITIES

BYPHONE — Secretary*2020 – Present*

- Coordinate organizational activities, support event planning, and collaborate with team members to ensure the successful execution of programs.

IEEE BUP Student Branch — General Member*2024 – Present*

- Actively participate in technical workshops, seminars, and networking events to enhance professional and technical skills.

BUP Computer Society — General Member
